

Process:

- You upload raw match footage using our dedicated Uplink (or use Dartfish software)
- If you have PlaySight Live courts, we can access your match footage directly
- We chart the match and upload to private Team and Player lockers on Tennis Analytics channel
- Detailed match reports are attached to match video and also sent to you.
- Coaches and players can review matches from any web-enabled device and search/filter match defining moments.

Testimonials:

"Tennis Analytics helped us become the best team we could be in 2014! Great information and quick turnaround time along with ease of use, make this a valuable coaching and player development tool."
- Peter Smith, USC Men's Coach (NCAA Champions 2014, 2012, 2011, 2010, 2009)

"Tennis Analytics is a great tool for capturing valuable data from any competitive tennis match. Seeing is believing, and critical for any player serious about improving."
- Dave Fish, Harvard Men's Coach

"Tennis Analytics has made a huge difference on how we use video in our program. The service they provide makes it possible to watch a 2 hour match in 15 minutes and the detailed reports we receive help us plan what we need to work on with each individual player. I would highly recommend Tennis Analytics to any collegiate tennis program."
- Jackie Holden, Northwestern Women's Associate Head Coach (2014 Big Ten Tournament Champions)

Pricing:
